[View Stripe's GitHub](#)

Connect to existing systems. Orchestrate payments across multiple processors, build custom workflows, and connect to third parties using APIs, partner apps, or prebuilt integrations.

Scale with confidence. Handle thousands of transactions per second with consistent speed and reliability, even during peak traffic periods.

API requests per day

API requests per second

transactions per minute

Choose an integration path. With AI-powered support, rich documentation, and built-in debugging tools, you can quickly get started with the best option for your business.

Don't code? Set up billing, take in-person payments, or share a payment link—right from the Stripe Dashboard, no code required.

[Explore no-code >](#)

Use a pre-integrated platform. Browse our directory of platforms that integrate Stripe with website-building tools.

[See directory >](#)

Build your own integration. Use our SDKs, APIs, MCP server, and AI developer tools to build and maintain your own integration with Stripe.
